Preliminary Program

Experience SCCM's complete Congress package! REGISTER TODAY!

To register, see page 5, visit www.sccm.org or contact SCCM Customer Service at +1 847 827-6888.
The Society of Critical Care Medicine’s (SCCM) 39th Critical Care Congress is developed by a multiprofessional team of experts, resulting in a program designed for all critical care professionals. The five continuous days of educational sessions, hands-on workshops, interactive debates, and networking opportunities, will provide you with effective solutions to the everyday challenges facing you and your team. This year’s Congress will feature exciting highlights including new pre-Congress courses, Miami tours, a Post-Congress Conference on Key West, and more!

39th Critical Care Congress Co-Chairs:

Bruce M. Greenwald, MD, FCCM
Professor of Clinical Pediatrics
Cornell University Weill Medical College
New York, New York, USA

Michael A. West, MD, PhD, FCCM
Vice Chair - Surgery
University of California,
San Francisco
San Francisco General Hospital
San Francisco, California, USA

IF YOU CAN ATTEND ONLY ONE MEETING NEXT YEAR, MAKE IT SCCM’S 39TH CRITICAL CARE CONGRESS.
Get ready for some quality time with SCCM! The 39th Critical Care Congress will highlight quality and performance improvement processes in critical care.

Since its inception in 1970, SCCM has maintained that the best way to improve staff satisfaction, enhance patient outcomes and boost the financial performance of hospitals is to deliver the Right Care, Right Now™. This efficient and safe patient-centered model of care can be achieved by establishing a standardized intensive care unit (ICU) structure consisting of an integrated multiprofessional team led by a trained and present intensivist. These high-performance teams are designed to achieve excellence in patient care.

To help healthcare providers implement the Right Care, Right Now model and benefit from quality improvements, SCCM created the Paragon Critical Care Quality Implementation Program (Paragon). Paragon partners SCCM members who have experience successfully implementing this model of care with hospitals in need of change.

Numerous hospitals have already experienced quality improvements as a result of participating in Paragon. At SCCM’s Congress, you can explore change strategies used by these and other hospitals to embed best practices and improve reliability in the critical care unit.

**CASE STUDY:**

Although they were already a high-performing team, the staff in Lakeland Regional Medical Center’s (LRMC) critical care units determined there were still opportunities for improvement. While they had the desire to implement changes, they needed guidance from people who understood the challenges they faced and could provide the support and resources to ensure changes were measured and sustainable. They found this support in the Society of Critical Care Medicine’s (SCCM) Paragon Critical Care Quality Implementation Program™ (Paragon).
Fundamental Disaster Management  
January 8, 2010
Prepare yourself and your intensive care unit to manage the surge in critically ill or injured patients after a disaster. Fundamental Disaster Management (FDM) provides the most recent information on disaster response, management of mass casualty injuries and allocation of scarce critical care resources. Disaster scenarios addressed include natural and man-made events (biological, chemical and radiation). Skill stations provide hands-on opportunities to use alternative positive pressure ventilation equipment and a higher level of personal protective equipment (PPE). Registration fee includes a copy of the FDM textbook, as well as breakfast and lunch. An instructor component is available for those interested in teaching FDM.

Adult Critical Care Refresher Course  
January 8-9, 2010
Valuable for all members of the multiprofessional team, this two-day course focuses on current standards of practice in critical care and provides a review of basic concepts. Updates on select topics such as therapeutic hypothermia, noninvasive ventilator support and quality and performance improvement issues also will be provided. Registration fee includes an in-depth syllabus, as well as breakfast and lunch. All speaker slides will be available to participants after Congress.

Current Concepts in Pediatric Critical Care  
January 8-9, 2010
Obtain the latest information available for both the clinical and basic science realms of pediatric intensive care. Topics include pediatric intensive care unit (PICU) technologies, management of burn injuries, relevance of biomarkers in sepsis management, cardiomyopathies and inflicted brain injury, translational medicine, ethical challenges in the PICU, and how to build collaborative PICU networks and business models. This course is a must for all pediatric critical care practitioners. Registration fee includes an in-depth syllabus, as well as breakfast and lunch. All speaker slides will be available to participants after Congress.

Pediatric Fundamental Critical Care Support  
January 8-9, 2010
Learn to manage unstable critically ill or injured pediatric patients. Pediatric Fundamental Critical Care Support (PFCCS) utilizes a combination of didactic and skill stations to address such topics as management of acute respiratory failure, postoperative management, sedation and pain management of children, and transport of the critically ill child. This two-day provider course parallels the adult FCCS course. Registration fee includes a copy of the PFCCS textbook, as well as breakfast and lunch. An instructor component is available for those interested in teaching PFCCS.

Fundamental Critical Care Support  
Instructor Course  
January 9, 2010
Become trained as a Fundamental Critical Care Support (FCCS) instructor and ensure that your patient care staff has the confidence and skill to treat the critically ill and injured. This course curriculum incorporates a structured and formal approach to adult learning concepts with a focus on teaching strategies. It is strongly recommended that participants be currently practicing in critical care, as the traditional two-day FCCS course is condensed into a one-day program. Visit www.sccm.org/FCCS for instructor criteria. Registration fee includes a copy of the current FCCS textbook, as well as breakfast and lunch. This course is intended for aspiring instructors only. Course content is not suitable for those desiring FCCS provider status.

Postgraduate Courses  
January 9, 2010
Receive a comprehensive update on the latest clinical treatments and administrative strategies that you can incorporate into your everyday practice. Space for each course is limited. Register early to guarantee your top choices.

New Courses:

- Intensivists as Educators: Developing an Educational Program and Surviving the Accreditation Process
- Managing Pharmacotherapeutic Challenges: Learning through Simulation (Half-Day Course)
- Commit - Transform - Improve: Critical Care Quality Tools and Techniques

Back by Popular Demand:

- Bedside Procedures
- Mechanical Ventilation
- Neurocritical Care: What Every Intensivist Needs to Know
- Renal Replacement Therapy for Intensivists
Plenary Sessions
Attend thought-provoking presentations that promote innovative developments in critical care. Plenary sessions are held at unopposed times with presentations given by distinguished, world-renowned leaders in the critical care field. Speakers include:

- Marcelo Amato, MD
  - University of Sao Paulo
  - Sao Paulo, Brazil

- Robert H. Bartlett, MD
  - Professor Emeritus
  - University of Michigan Health System
  - Ann Arbor, Michigan, USA

- Janet M. Corrigan, PhD, MBA
  - President and CEO
  - National Quality Forum
  - Washington, DC, USA

- Martha A.Q. Curley, RN, PhD
  - Associate Professor
  - University of Pennsylvania School of Nursing
  - Philadelphia, Pennsylvania, USA

- David G. Jaimovich, MD
  - President
  - Quality Resources International
  - Northbrook, Illinois, USA

- Polly Matzinger, MD
  - National Institutes of Health/National Institute of Allergy and Infectious Disease
  - Bethesda, Maryland, USA

- Edward D. Miller, MD
  - Chief Executive Officer, Johns Hopkins Medicine
  - Dean, Johns Hopkins University School of Medicine
  - Baltimore, Maryland, USA

A Sweet Escape: Post-Congress Conference on Key West
Enjoy an extended Congress by attending the Post-Congress Conference on Key West, Florida, USA on the topic of Hyperglycemia and Critical Illness: Adaptive Response or Therapeutic Opportunity? A welcome reception and dinner will be held on the evening of Wednesday, January 13, 2010, followed by two morning educational sessions on January 14 and 15, 2010. See pages 10 and 11 for details.

Fellowship Directors’ Luncheon
Critical care fellowship program directors are invited to participate in the Fellowship Directors’ Luncheon: Work Hour Restrictions and Their Effects on Resident/Fellow Education in Critical Care, to be held on Monday, January 11, 2010, from 12:00 p.m. to 1:20 p.m. Take advantage of this opportunity to review the current status of the Internal Medicine Work Hour Restrictions Report and the Accreditation Council for Graduate Medical Education’s (ACGME) response. Discuss with peers and experts where the concept of service versus education fits into this environment. Exchange strategies for stretching clinical coverage within the confines of these restrictions.

Opening Reception
Join your colleagues and friends for light hors d’oeuvres before venturing out on your own to explore the Miami Beach nightlife. SCCM’s 39th Critical Care Congress opening reception will be held at the Fontainebleau Miami Beach on Saturday, January 9, 2010, from 6:00 p.m. to 8:00 p.m. All Congress attendees and registered guests are welcome.

Sponsored Symposia
Learn about clinical breakthroughs and advances that lead to better patient care during the stimulating discussions of sponsored symposia. Each session is presented by leading experts in critical care and offers a thorough analysis of the developments and controversies affecting most intensive care unit environments. These industry-supported sessions are complimentary for all Congress registrants. Complete details and registration information will be available online at www.sccm.org in November 2009.

Abstract Presentations and Poster Hall Events

Oral Presentations
Oral presentations will be scheduled, unopposed, for two hours on Sunday, January 10, 2010. These presentations will highlight the top 64 abstracts submitted.

Poster Discussions and Awards Presentations
Interact and discuss original scientific research findings with abstract authors in the Poster Hall, which will be open Sunday, January 10, 2010, through Tuesday, January 12, 2010. Winners of SCCM’s abstract-based awards will be recognized during a ceremony in the Poster Hall on Tuesday, January 12, 2010.

Professor Walk Rounds
Select poster presentations will be assigned by topic to noted faculty and other experts who will facilitate the exchange of ideas and commentary between younger scientists and established clinicians. Presentations will be scheduled at unopposed times Sunday, January 10, 2010, through Tuesday, January 12, 2010.

2010 CONGRESS PRELIMINARY PROGRAM | WWW.SCCM.ORG/CONGRESS | SOCIETY OF CRITICAL CARE MEDICINE • 3
LEARNING OBJECTIVES
At the conclusion of the 39th Critical Care Congress, participants should be able to:
› Apply new knowledge and strategies to optimize the care of the critical care patient provided by the multidisciplinary team
› Examine evidence-based medicine techniques to evaluate and improve patient care
› Integrate guidelines to measure performance and identify areas for further study and improvement

ADMINISTRATION
› 24-Hour Intensivist Coverage in the ICU: Is it Possible or a Fool’s Dream?
› Doing More with Less: Critical Care in the Era of Work Hour Restrictions
› Evidence-Based Practice: How Much Evidence is Needed?
› Money Can’t Buy You Love. Happiness Thru Proper Coding and Billing
› Patient Safety: Harmful or Helpful?
› Primer for Critical Care Journals: Authors and Reviewers

AIRWAY
› Airway Challenges in the ICU
› Early Tracheostomy Is Beneficial: A Pro/Con Debate

BASIC SCIENCE
› Fill ‘Er Up: The Cellular Impact of Resuscitation
› Going “Gene” Fishing? Net or Spear?
› Innate Immunity in Critical Illness: From the Receptor to the Integrated Response
› No Flow, No O2, Reflow, OH-OH!
› The Microcirculation in Organ Dysfunction

CARDIOLOGY
› Cardiopulmonary Resuscitation: Before, During and After
› Controversies in Cardiovascular Medicine
› Go Around or Through: How Do You Want Your Heart Revascularized?
› What’s New in the Management of Pulmonary Hypertension?

ETHICS
› Determining and Respecting Patients’ Goals of Care: Beyond DNR
› Donation after Cardiac Death: Issues in the ICU
› Managing Organ Donors in the ICU
› The Many Faces of Death

ENDOCRINE – RENAL
› Critical Care Endocrinology: More Than Just a Sweetener
› Glucose Control in Organ Disease: Moving Beyond the Benefits
› Hitting the (Bio)Mark in Acute Kidney Injury
› Rage Against the Machine: Non-Dialytic Volume Management

GI – NUTRITION
› Way Beyond the South Beach Diet

HEMATOLOGY
› ICU Transfusions
› Massive Transfusion: What’s Old Is New, Is What’s Old, New?

INFECTION DISEASE
› Antibiotics: Less Isn’t ALWAYS Better
› Clostridium Difficile Colitis
› Fungal Infections in the ICU
› The Wrath of Staph

MONITORING – TECHNOLOGY
› Can We Replace the Body?
› Clinical Informatics in the ICU
› Scanning for Medication Error Solutions: Bar-Code Technology

NEUROSCIENCE
› Get Stoked for Strokes
› Hypothermia for CNS Injury
› Neuro ICU Patients Should Only be Managed by Neuro Intensivists: A Pro/Con Debate
› Novel Therapeutics for the Critically Ill Neuro Patient
› Who Needs a Hole in their Head?

PHARMACOLOGY
› Application of EBM Protocols
› Don’t Stop the Flow: Respiratory Administration of Medications
› Drug Dosing in the Obese: Festivus for the Rest of Us Who Aren’t 70 Kg
› Pharmacy Kitchen: Salt, Sugar and Protein
› Treating Agitation and Delirium: Providing Clarity to an Alphabet Soup of Potential Options

PEDIATRICS
› Donation after Cardiac Death in Children Should be Abolished: A Pro/Con Debate
› Hot Topics in Pediatric Sepsis
› Pediatric Interactive Cases
› Pediatric Neurotrauma Potpourri
› Pediatric Palliative Care
› Pediatric Respiratory Failure: The Final Frontier
› Therapeutic Implications of Genomics in Critically Ill Children
› Update on Congenital Cardiac Disease
› Work Life and Home Life: The Balancing Act

RESEARCH
› Application of EBM Protocols
› Don’t Stop the Flow: Respiratory Administration of Medications
› Drug Dosing in the Obese: Festivus for the Rest of Us Who Aren’t 70 Kg
› Pharmacy Kitchen: Salt, Sugar and Protein
› Treating Agitation and Delirium: Providing Clarity to an Alphabet Soup of Potential Options

RESPIRATORY
› 2010 TRALI (Transfusion Related Acute Lung Injury)
› A New Look at ECMO in Respiratory Failure
› Fluid Management in ARDS
› Making Sense of Modern Modes of Mechanical Ventilation: Special Situations
› Update on Mechanical Ventilation
› VAP? NEVER! New Implications for ICU Practice
› Ventilator Management in the “New” Millennium

SEDATION – PAIN
› Nightmare on ICU Street: Sleep, Delirium and PTSD
› The Dying Art: Terminal Sedation
› The Sedative Buffet: Variety Is the Spice of Life

SEPSIS
› International Sepsis Forum: Controversies in Severe Sepsis
› Making Sense of the Surviving Sepsis Campaign
› State of the Art Pharmacologic Interventions for Sepsis

TRAUMA/SURGERY
› Bedside ICU Procedures Should Only Be Done By Surgeons: A Pro/Con Debate
› Lessons Learned from the Wars
› Surgical Manpower: Acute Care Surgery IS the Answer
› Transplantation in 2010

YEAR IN REVIEWS
› Anesthesia
› Internal Medicine
› Nursing
› Pediatrics
› Pharmacy
› Surgery

JOIN SCCM NOW AND SAVE ON CONGRESS TUITION!
Become an SCCM member and save up to $200 on your Congress registration fee. Membership dues are as follows:
Healthcare Professional: $125
In-Training: $80
International Physician: $245
Physician: $340
Young Physician: $185
For details on membership options and benefits, visit www.sccm.org and select the membership tab. To register for Congress as a member today, total the appropriate dues on your Congress registration form and include payment.
39TH CRITICAL CARE CONGRESS: REGISTRATION FORM
MIAMI BEACH CONVENTION CENTER • MIAMI BEACH, FLORIDA, USA • JANUARY 9-13, 2010

Please type or print clearly. Please keep a copy of this form for your records.
To purchase a guest registration or to sign up for tours, please use the form on page 9.

REGISTRANT INFORMATION

Last Name (Surname) ____________________________ First ____________________________ Middle Initial _____ Customer/Member # ___________
Degrees/Credentials (ex.: ACNP, MD, PharmD, RN, RRT, etc.) __________________________________ Gender: □ Male □ Female
Organization __________________________________________ Address __________________________________________
City ____________________________ State _______ Zip/Postal Code __________________
Country __________________________________________ □ Home □ Office □ Phone ________________
Fax* __________________________________________ □ Email __________________________________________

*By including your fax number above and signing here, you give consent to receive faxes sent by SCCM. Signature ___________ Date __________

REGISTRATION RATES

MEMBER BY 11/16/09 AFTER 11/16/09 DAILY
Physician $695 $795 $400
Healthcare Professional* $415 $515 $275
Student $240 $290 $200

NONMEMBER BY 11/16/09 AFTER 11/16/09 DAILY
Physician $895 $995 $500
Healthcare Professional* $540 $640 $325
Student $320 $370 $270

ADDITIONAL TICKETED SESSIONS/EVENTS
You do not need to be registered for Congress to attend these courses.
*If you are not registered for Congress, a $50 charge per course will be applied to your registration fee.

PRE-Congress SESSIONS:
Each course is $360 ($410*) for physicians, $305 ($355*) for healthcare professionals and students.
□ Adult Critical Care Refresher Course $_______
□ Current Concepts in Pediatric Critical Care Course $_______

POSTGRADUATE REVIEW COURSES:
□ Bedside Procedures $395 ($445*) $_______
□ Intensivists as Educators: Developing an Educational Program and Surviving the Accreditation Process $295 ($345*) $_______
□ Managing Pharmacotherapeutic Challenges: Learning through Simulation (Half-day course: 8 a.m.-12 p.m.) $175 ($225*) $_______
□ Mechanical Ventilation $295 ($345*) $_______
□ Neurocritical Care: What Every Intensivist Needs to Know $295 ($345*) $_______
□ Renal Replacement Therapy for Intensivists $295 ($345*) $_______
□ Commit - Transform - Improve: Critical Care Quality Tools and Techniques $295 ($345*) $_______

OTHER:
□ Fellowship Directors’ Luncheon $65 ($115*) $_______
□ Fundamental Critical Care Support Instructor Course $295 ($345*) $_______
□ Fundamental Disaster Management Course $295 ($345*) $_______
□ Pediatric Fundamental Critical Care Support Course $375 ($425*) $_______

Pre-registration will be accepted until December 10, 2009. Thereafter, registrations will be accepted on site only.

PAYMENT INFORMATION (Please send payment with registration form.)

□ Check (must be U.S. funds drawn on a U.S. bank) or International Money Order
□ Wire Transfer (Please contact SCCM Customer Service for wire transfer information.)
□ Credit Card: □ American Express □ Discover □ MasterCard □ Visa
Card Number ____________________________ Expiration Date ____________________________
Cardholder Name __________________________________________________________________________
Cardholder Signature _____________________________________________________ Date __________

CANCELLATION/REFUND POLICY Cancellations must be submitted in writing. All cancellations are subject to a $75 non-refundable processing fee and must be postmarked prior to December 10, 2009 to be eligible for a refund. Any cancellation postmarked after this date will NOT be refunded. Exchanges and substitutions are not allowed at any time. Dates for the 39th Critical Care Congress are subject to change and/or cancellation. In the event of a change/cancellation, only individual registration fees will be reimbursed. Please allow four weeks to process refunds.
HOTEL ACCOMMODATIONS

Take advantage of discounted Congress hotel rates by making your reservations through the SCCM Housing Bureau. Reserve your room online at www.sccm.org/Congress. Room reservations for all Congress hotels will be handled on a first-come, first-served basis. Room rates noted are quoted in US Dollars (USD) and do not include applicable taxes. All reservations are subject to availability. Reservations made after Friday, December 4, 2009, may not receive discounted rates. For additional information, please call +1 800 476-9969 or +1 305 539-2928, or email housing@gmcvb.com.

Headquarters Hotel:
Fontainebleau Miami Beach
4441 Collins Avenue
Miami Beach, Florida, USA 33140
www.fontainebleau.com

Rates:
$225 Chateau/Versailles – Single/Double
$275 Tower – King
$375 Tower – One-Bedroom Suite

The Fontainebleau
Miami Beach features:
› 22 oceanfront acres
› 40,000-square-foot spa
› 11 restaurants
› 3 celebrity chef restaurants
› Impressive nightclubs
› Luxuriously-appointed and spacious guestrooms
› A sophisticated poolscape
› Tropical greenery
› Poolside cabanas

Shuttles will continuously circulate between all Congress hotels and the Miami Beach Convention Center to allow for easy and convenient travel during Congress.

TRAVEL INFORMATION

SCCM has arranged for discounted airfare with American Airlines for travel to the 39th Critical Care Congress in Miami. Take advantage of the following savings:

Book your domestic flight online with no booking fees at www.aa.com. Enter A8610AA in the promotion code field to receive a 7% discount off the lowest applicable published airfare. Or, call American Airlines toll-free at +1 800 433-1790 and refer to meeting ID A8610AA. Please note there will be a $20 booking fee for tickets purchased via the telephone.

International travelers: please contact your local reservations number and refer to promotion code A8610AA.

All travelers also may contact SCCM’s official travel agency, Travel Leaders, at +1 800 238-6903 for assistance with travel needs.

CAR RENTAL

SCCM has negotiated special car rental rates for Congress with Avis Rent A Car. Discounted rates are available for rentals checked out and returned between January 2, 2010 and January 20, 2010. To receive the discounted rates, please refer to the information below.

AVIS

Avis Rent A Car
+1 888 754-8878
www.avis.com
Promotion Code: G027994

COMMIT. TRANSFORM. IMPROVE.
CASE STUDY (CONTINUED):

496 patients were screened for sepsis, with 310 patients meeting the criteria for and receiving the sepsis resuscitation bundle. Of those receiving the bundle, 62% met the goal of a ScvO2 >70% – one of the highest rates of compliance seen by the Surviving Sepsis Campaign. The ICU team worked collaboratively with the ED to implement processes to improve early recognition and treatment of sepsis. This included alerting the medical ICU charge nurse to potentially septic patients, revising the screening/order sheet, educating staff in the ED, and developing an early goal-directed therapy cart with supplies.
Afternoon Fishing Cruise
Get ready for a fun-filled afternoon fishing the beautiful waters off Florida's spectacular coastline, one of the world's greatest sport fishing locations. Inexperienced anglers are welcomed. Price includes bait, tackle, rods, reels, and license fees. Sunscreen and light, comfortable clothes and shoes are recommended.

Classic Miami City Tour
Visit some of Miami's most popular destinations, including the historic towns of Coconut Grove and Coral Gables; The Arsht Center, the first and largest art deco building in South Florida; the Freedom Tower, a center for Cuban exiles in the early 1960s; and the colorful Art Deco District.

Everglades Eco Adventure
Skim through the Everglades on an airboat and discover the abundance and variety of wildlife and plants unique to North America. Rare and endangered species such as the American alligator and the Florida Everglade kite cohabit with teals, storks, river otters, bobcats, and white-tailed deer in this unique ecosystem.

Ghosts and Gravestones
Tour by lantern one of North America's most controversial archaeological sites: the Miami River Circle, a circle formation cut into limestone bedrock that could signify the existence of an ancient culture. Afterward, you will visit and learn about long-deceased pioneers and settlers of Miami at the ornate, restored Miami City Cemetery.

Pathways to a Seminole Nation
Explore the proud heartland of the never-conquered Seminole Nation. Examine rare Seminole artifacts at the At-Tah-Thi-Ki Museum. Follow a winding nature trail to a Seminole village to watch arts and crafts demonstrations, and listen to great Seminole stories. Then board airboats for an informative tour through the Everglades.

Tropical Deco in a Fabled Playground
Learn about the eye-popping history and architectural styles of Miami, including the halls of the first hotel ever built on Miami Beach and the imaginative and playful art deco lifeguard stands. Sunscreen and light, comfortable clothes and shoes are recommended.

Villa Vizcaya and Fairchild Tropical Gardens
Visit the world famous Villa Vizcaya, a 16th century Italian Renaissance-styled villa nestled in ten acres of beautifully manicured gardens. Afterward, stroll the 83-acre Fairchild Tropical Botanic Gardens, which showcases exotic plants and trees set in a landscape masterpiece designed by William Lyman Phillips, the designer of New York's Central Park.

HYPERGLYCEMIA AND CRITICAL ILLNESS: ADAPTIVE RESPONSE OR THERAPEUTIC OPPORTUNITY?

January 13-15, 2010
Key West, Florida, USA

Acute hyperglycemia was once regarded as an adaptive response to critical illness. However, a plethora of studies have challenged this idea by reporting increased risks associated with hyperglycemia and benefits of improved glucose control in intensive care unit (ICU) patients. As a result, some experts promote routine administration of intensive insulin therapy (IIT) to normalize glucose levels. Others question the practice due to concerns over the optimal glucose level, the accuracy of measurements, the resources required to attain tight glycemic control (TGC), and the impact of TGC across the heterogeneous ICU population. Furthermore, increased variability in glucose levels during critical illness and the therapeutic intervention thereof have recently been reported to have a negative impact on patient outcomes. The concept of lowering morbidity and mortality rates using TGC intervention remains controversial.

Learn more about the latest discoveries regarding this controversial topic by attending SCCM’s Post-Congress Conference, Hyperglycemia and Critical Illness: Adaptive Response or Therapeutic Opportunity? A faculty of international experts will present a pro/con debate on the NICE Sugar Trial findings, case studies on insulin protocols and nutritional guidelines and interactive debates on glucose variability and achieving glycemic control. Audience participation will be strongly encouraged to enhance the overall learning experience. Visit www.sccm.org/Congress for complete course details.

CONFERENCE CO-CHAIRS:

Daren K. Heyland, MD
Kingston General Hospital
Kingston, Ontario, Canada

Marion F. Winkler, PhD, RD
Rhode Island Hospital
Providence, Rhode Island, USA
Commit. Transform. Improve.
Case Study (Continued):
The LRMC team’s successes prove the effectiveness of the Right Care, Right Now model, as well as highlight the fact that every ICU team can make improvements no matter the magnitude. To read more success stories about implementing this model of care, visit www.sccm.org/Paragon.

To book hotel and shuttle transportation for the Post-Congress Conference, please complete and return the form on page 13 by Friday, December 4, 2009.

EVENT SCHEDULE
At the close of the annual Congress, registered participants will be transferred to the luxurious Casa Marina Resort and Beach Club on Key West via shuttle buses. A welcome reception and dinner will be held the evening of Wednesday, January 13, 2010, from 7:00 p.m. to 9:00 p.m. Two morning educational sessions will be held on January 14 and 15, 2010. The morning sessions provide participants with ample time to explore the island and enjoy sightseeing and outdoor activities each afternoon. Shuttles to Miami will be available Friday through Sunday so participants have the option to stay on the island once the conference has ended. To register for the Post-Congress Conference, see page 12, visit www.sccm.org/Congress or contact SCCM Customer Service at +1 847 827-6888. Please note: you do not need to be registered for Congress to attend this conference.

HOTEL ACCOMMODATIONS
Casa Marina Resort & Beach Club
1500 Reynolds Street
Key West, Florida, USA 33040
www.casamarinaresort.com

Rates:
$299 Single/Double – Island View
$325 Single/Double – Ocean View

Rates do not include $20 per room per night resort fee, or state and local taxes. Visit www.sccm.org/Congress for complete details. Hotel reservations must be made by completing the form on page 13.

TRAVEL INFORMATION
SCCM has arranged for discounted shuttle transportation for travel between Miami Beach and Key West. Round-trip rate is $110 per person; one-way rate from Miami to Key West is $70 per person. Travel time via shuttle between Miami Beach and Key West is approximately 4 hours. Shuttle transportation also is available from the Casa Marina to Key West Airport. One-way rate is $25 per person.
POST-CONGRESS CONFERENCE: REGISTRATION FORM
HYPERGLYCEMIA AND CRITICAL ILLNESS: ADAPTIVE RESPONSE OR THERAPEUTIC OPPORTUNITY?
CASA MARINA RESORT & BEACH CLUB, KEY WEST, FLORIDA, USA, JANUARY 13-15, 2010

CHOOSE FROM FOUR EASY WAYS TO REGISTER:
